Spelling Test Ls. 2 - Friday

Religion Test - Friday, Chapter 1

Other Announcements -

Want to lower tuition? See if you can sign up 2 people for e-scrip! There is no buying or remembering cards. Just register your cards. Don't know how?? Talk with any PTG member.

- Please bring in your empty cans. We recycle the cans and use the money for our pet supplies. Thank you!
- **Healthy Snacks** What are the students bringing to school to eat?? Students should be coming to school after they have eaten a good breakfast. We have discussed how important it is at this time to be filling their bodies with healthy foods. I am allowing the students to eat in the classroom if they are hungry. They can only eat the following foods: fruits, vegetables, nuts, cheese, meat, yogurt, granola bar, peanut butter, wheat crackers, and water to drink. Of course, the other foods can be eaten during recess and lunch. We have discussed how wanting to play and little time during recess might be a factor in not eating the right foods during the school week. Our goal is to have healthy minds and bodies!
- **Parent help:** Please help me so I can continue to help your child the best I can. Please use the following codes in the upper hand corner of the homework paper.
No mark = no assistance from an adult
1 = little assistance
2 = some assistance
3 = needed quite a bit of assistance (my child needs extra instruction on this concept)
- As you have probably have noticed, I believe that field trips are great opportunities to learn more about history and our world. In 1993, I started taking junior high students to Williamsburg, Jamestown, and Washington DC for a one week trip. I have been going every odd year and it is truly an amazing experience. This year I took my 9th trip!! I take the students in June so it is **not a school trip**, but I do have the full support from Mrs. Hanson. Keep this in mind for the 2011 or 2013 trip when your child is in 6th or 8th grade. Yes, I do take parents! I have taken parents, the whole family, cousins, older brothers and sisters, and even grandparents. It is truly a wonderful trip for anyone, but the trip is geared for the junior high age. If you want to know more about it or contact me or check out www.schooltoursofamerica.com Start saving!!
